## DEAR COLLEAGUES!

You are welcome to take part in the work of the  
**International Scientific and Practical Conference**  
**"MODERN TRENDS OF SCIENCE AND EDUCATION IN THE FIELD**  
**OF VITICULTURE AND WINEMAKING"**,  
dedicated to the 180th birth anniversary of Lev Sergeyevich Golitsyn,  
which will take place on September 9-12, 2025 (Yalta, Republic of Crimea, Russia)

**The goal of the Conference:** formation of development concept of fundamental, exploratory and applied researches in agricultural sciences, development of innovative and digital technologies.

**The Conference will be attended by:** representatives of relevant scientific, educational institutions and production enterprises, leading scientists in the field of viticulture, horticulture, biotechnologies, plant protection, winemaking, storage and processing of plant raw materials, digital technologies.

The Conference will be held under the auspices of the NRC "Kurchatov Institute", Ministry of Science and Higher Education of the Russian Federation, Russian Academy of Sciences, Ministry of Agriculture of the Republic of Crimea, and in a partnership with leading Russian and foreign scientific institutions.

### **The Conference program includes:**

- Grand opening and plenary session of the Conference, tasting of domestic wines and table grapes (10.09.2025);
- Sectional sessions, including the School of Young Scientists (11.09.2025);
- Closing ceremony of the Conference (12.09.2025).

### **Work directions of the Conference:**

- Natural resources, ecology and geoinformatics;
- Genetic resources, genetics, genomics, bioengineering and breeding;
- Ampelocenos and agritechnological cultivation systems;
- Plant protection and quarantine;
- Biotechnologies in viticulture and winemaking, organic farming;
- Storage, processing and product quality management;
- Strategies and technologies of winemaking with a protected geographical indication and eco-friendly status;
- Creation of new functional food products;
- Production control and product identification systems;
- Digitalization of viticulture and winemaking: information systems, artificial intelligence, IT technologies.

The Conference will be held in Russian and in English.

**Participation formats:** full-time, remote, on-line.

**Proposed publication formats:**

- in the Collection of Scientific Papers Viticulture and Winemaking (RSCI);
- in the Journal Magarach. Viticulture and Winemaking (RSCI, HAC C2).

Conditions of participation in the Conference and requirements of submitting the materials for publishing will be announced in the 2nd informational letter.

**For those who want to participate in the Conference work, it is necessary to send the application form before July 1, 2025 using link:**
